

FDLE Forensic Services Collegiate Open House

During this one-day event, students will gain a general understanding of the crime laboratory and the forensic disciplines at FDLE:

- Biology/DNA
- Crime Scene
- Digital Evidence
- Documents
- Firearms
- Friction Ridge
- Impression Evidence
- Seized Drugs
- Toxicology
- Trace Materials

Select FDLE regional crime laboratories will host an event in the following locations:

Typical timeframes during the year:

- August - before fall term
- December - during winter break
- March - during spring break

*Participation is limited. Not every location will have the event during every timeframe.
